JACKSON DETACHMENT REPORT NO. 1 FOR AUGUST 1961

FROM [REDACTED] 27 TO [REDACTED] 30

1. SUMMARY OF ACTIVITIES. The expected target of three to four training flights was not attained for the month of August. [REDACTED] 27 and 28 had two [REDACTED] flights each. This was offset, however, by the fact that both completed an extended flight of nine hours duration. The primary reason for not reaching the monthly target was the non availability of aircraft and personnel due to [REDACTED] commitments. The secondary reason--and this only affected one possible flight--was that JACKSON pilots are now restricted to flying only those aircraft carrying standard USAF markings. To date, only one [REDACTED] is so marked. By the end of this week, however, one will also have USAF markings.

T-33 FLYING. [REDACTED] 27 had two flights (one front seat). [REDACTED] 28 had three flights (all front seat). [REDACTED] 28 has reached solo stage and should have solo ride after one night flight this week.
